STAMPCRETE SUPER STRENGTH COLOR HARDENER

Packaging: 60 lb. Bucket Coverage 100 sq. ft.
 27.2 kg. Bucket Coverage 10 m²

STAMPCRETE Color Hardener is specially formulated to be easily incorporated into the durable, abrasion-resistant surfaces, which offer streak-free vibrant colors, providing an attractive and long-lasting finish for any type of traffic. STAMPCRETE Hardeners are longer wearing, easier to maintain and more resistant to the effects of freeze/thaw cycles and salts. Textured surfaces may be implemented with this system to give authentic appearance variations where applicable.

STAMPCRETE COLORED RELEASE AGENTS

Packaging: 28 lb. Pail Coverage 1000 sq. ft.
 12.7 kg. Pail Coverage 92.6 m²

STAMPCRETE Powdered Release Agents are a dry blend of chemical powders and color pigments, used to achieve accent colors and various color variation to textured surfaces in decorative stamped concrete. STAMPCRETE Release Agent allows the clean release of decorative stamps from the concrete surface by acting as a barrier between the concrete and the texturing tools.

STAMPCRETE PATINA STAINS

Packaging: 1 Gallon (3.78 liters)
5 Gallon (18.9 liters) Coverage: See Tech Data Sheets

STAMPCRETE Patina Stains produce a translucent variegated finish, including broad drifts in color, sometimes soft in appearance. This variegation is the reason this method of concrete coloration is chosen. STAMPCRETE Patina Stains are not paints or coatings and do not cover up, but rather work in conjunction with the color of the substrate. Patina Stain has durability, strength, and resistance to the effects of weather and traffic.
